Facebook Widget for Magento 2 User Guide

Introduction

In the present E-commerce it lead to losses if a store owner doesn't use social networks for his business. Still, not all the users follow your news on Facebook, so they can miss something. With our extension you can set the Facebook timeline right into your store.

Thus your clients will be able to see all the latest posts and updates, so they will be always informed about anything happening in your store. You can choose the content you want your users to see and there is no need to share your password. The interaction with your clients via Facebook has become easier.

Check also Facebook Widget for Magento 1 in our store.

Installation

1. Unpack the zip file provided into the root folder of your Magento 2 installation.
2. From a command line run:

bin/magento module:enable Neklo_Core
bin/magento module:enable Neklo_FacebookPage
bin/magento setup:upgrade
bin/magento setup:static-content:deploy

Magento compatibility

Community Edition 2.1.x, 2.2.x
Enterprise Edition 2.1.x, 2.2.x

How to configure the extension

To configure the extension, log into your **Admin Panel** and go to **Stores > Settings > Configuration > Neklo Tab > Facebook Widget**

1. You can enable the extension by setting Yes in the **Is Enabled** line.

How to configure the widget

To set the widget, go to **Content > Elements > Widgets > Add Widget**. Set the type **[NEKLO] Twitter Widget** and choose the **Design Theme**.

After adding the widget, configure it. You will see the **Storefront Properties** tab:

1. **Widget Title** is the name of this widget
2. **Assign to the Store Views** means the Store Views the widget will be assigned to
3. **Sort Order** is the numerical order of this widget
4. Set the **Layout Updates**. Choose the page with **Display On** and particular place with **Container**.

After this go to the **Widget Options** tab. You will see here the following:

1. **Is Enabled** turns the widget on and off
2. **URL Key** is the url of the user, whose posts will be displayed
3. **Width** and **Height** regulate the size of the widget.
4. **Tabs to render** display the tabs that may be rendered
5. **Hide Cover Photo** hides the cover photo in the header is set to Yes
