How to configure the extension

To configure the extension, log into your **Admin Panel** and go to **Stores > Settings > Configuration > Neklo Tab > Share Buttons Widget**

You can enable the extension by setting Yes in the **Is Enabled** line.

How to configure the widget

To set the widget, go to **Content > Elements > Widgets > Add Widget**. Set the type [NEKLO] Share Buttons and choose the **Design Theme**.

After adding the widget, configure it. You will see the Storefront Properties tab:

1. **Widget Title** is the name of this widget

2. **Assign to the Store Views** means the Store Views the widget will be assigned to

3. **Sort Order** is the numerical order of this widget

4. Set the **Layout Updates**. Choose the page with **Display On** and particular place with **Container**.

After this go to the **Widget Options** tab. You will see here the following:

1. **Is Enabled t**urns the widget on and off

2. Icon Type is the style of the buttons. You can choose **Circle, Square**, and **Simple**

3. **Color Icon** regulates whether the buttons will be colored or no

4. **Title Type** is the title you can set. It may be the same of the page or you can set the custom title.

5. Then you can choose the networks that will appear: Facebook, Twitter, Google+, Pinterest, Reddit, StumbleUpon, Digg, and Houzz. For Twitter you should also specify the Hashtag and the Username of the content author.

> **NOTE!** Houzz will only appear on the PDP page.
